GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriative rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

Dear Mr. Matheu:

**STATEMENT OF WATER DIVERSION AND USE 8071 – EAST FORK RUSSIAN
RIVER IN MENDOCINO COUNTY**

Our records show that you filed a Statement of Water diversion and Use in 1973 and Supplemental Statements through 1987 for diversion of water from the East Fork Russian River in the NW ¼ of NE ¼ Section 29, T17N, R11W, MDB&M for the purpose of irrigation and frost protection of approximately 200 acres of vineyard. No Supplemental Statements, beyond 1987, have been returned to this office for this diversion of water.

If you are still diverting water from the East Fork Russian River under this claim of right, please complete the enclosed Supplemental Statements and return them to the Division of Water Rights, attention Koso Nodohara. If we do not receive the completed Supplemental Statements by May 15, 1998, we will assume you are no longer diverting water under this claimed right and our records will be changed accordingly.

If you have any questions concerning this matter, please contact Mr. Nodohara at (916) 657-1872.

Sincerely,

Wm. Van Dyck

Dear Mr. Matheu:

**STATEMENT OF WATER DIVERSION AND USE 8071 – EAST FORK RUSSIAN
RIVER IN MENDOCINO COUNTY**

Our records show that you filed a Statement of Water diversion and Use in 1973 and Supplemental Statements through 1987 for diversion of water from the East Fork Russian River in the NW ¼ of NE ¼ Section 29, T17N, R11W, MDB&M for the purpose of irrigation and frost protection of approximately 200 acres of vineyard. No Supplemental Statements, beyond 1987, have been returned to this office for this diversion of water.

If you are still diverting water from the East Fork Russian River under this claim of right, please complete the enclosed Supplemental Statements and return them to the Division of Water Rights, attention Koso Nodohara. If we do not receive the completed Supplemental Statements by May 15, 1998, we will assume you are no longer diverting water under this claimed right and our records will be changed accordingly.

If you have any questions concerning this matter, please contact Mr. Nodohara at (916) 657-1872.

Sincerely,

ORIGINAL SIGNED BY.

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:
